## OVERVIEW

My career spans four decades of developing practical strategies for transforming organizational structures, cultures and processes away from command and control toward more collaborative work systems. I am an award-winning author of over 100 papers and four books on organizational change, leadership, teams and teamwork. I'm on the editorial boards of both scholarly and practical journals and I have given talks and courses on leadership and organizational change methods in Canada, the US, Europe, Australia, Asia and Africa.

As someone concerned with practical scholarship, I test my models in the field by consulting to blue chip corporations and start-ups, public sector and business corporations, in a variety of sectors. A number of my publications are field experiments and case studies of change efforts I've worked on.

Clear Leadership (2009) has been translated into 9 languages and over 100 certified facilitators have trained tens of thousands of managers in North America, Europe and Asia through a unique learning process that increases their social and emotional competence and ability to lead collaborative and agile teams. <https://clearleadership.com>. Over the past 15 years my work with Bob Marshak has defined a theory of transformational change, Dialogic Organization Development, that is stimulating significant research by others. We have recently co-founded the Bushe-Marshak Institute for Dialogic Organization Development (BMI) to further research , and provide training and development of Dialogic professionals. Since 2020 I have been editing and publishing the BMI series in Dialogic OD, printed and sold through Amazon. <https://B-M-Institute.com>.

I have won numerous awards, including the prestigious Douglas McGregor award twice for my academic papers. Since 2016 HR Magazine in the UK has honored me as of the 30 most influential Thinkers in 'people strategy'. A chapter on my life and work was commissioned for the *Palgrave Handbook of Organizational Change Thinkers*.

Virtually all my papers and videos can be found following links at [www.gervasebushe.ca](http://www.gervasebushe.ca).
