Today, SFU Beedie has more than 25,000 alumni in 83 countries. SFU Beedie’s Segal Graduate School offers nine graduate programs delivered through the Segal campus in downtown Vancouver and the state-of-the-art SFU campus in Surrey, in the heart of Metro Vancouver.

THE PROGRAM

By blending financial theory with real-world experience, SFU Beedie’s Master of Science in Finance (MSc Finance) prepares you for the fast-paced, ever-changing world of finance.

Designed to meet the increasing global demand for skilled risk and investment management professionals, it covers the fundamentals of finance, asset pricing, market risk management and credit risk management.

You’ll have the opportunity to choose one of two streams: Investment Management or Risk Management, each of which shares the same core courses and offers the same opportunities for extracurricular enrichment.

• The MSc Finance program is built on fundamental finance theory and practice
• The program is delivered in a full-time format over the course of 16 months, divided into four terms
• Classes take place in downtown Vancouver, one of the top 5 cities in the world to live
• Students have the opportunity to manage one of North America’s largest student-run portfolios

Our MSc Finance graduates go on to work in positions across the full spectrum of financial and regulatory institutions, all around the world.

PREPARE FOR A DEMANDING CAREER
Our Student Investment Advisory Service (SIAS) Fund is the largest student-led fund in Canada and one of the largest in North America with a value of $19 million CAD (as of March 22, 2019).

Managing the fund gives you real investment, risk management and compliance experience and offers the chance to engage with industry leaders. Every quarter, the SIAS Fund presents a review in front of an Industry Performance Review Committee.

The fund follows a balanced investment style with four asset classes that are semi actively managed: Canadian equity, global equity, fixed income and cash.

**ENVIRONMENTAL, SOCIAL AND GOVERNANCE PRINCIPLES**

At SFU Beedie, we are committed to applying Environmental, Social and Governance criteria to endowment investments, including SIAS. These principles are also integrated throughout our curriculum to help you become a more conscientious leader and develop these in-demand skills.

“By incorporating ESG into SIAS’ investment analysis and decision-making process, we learned how to assess companies’ business models through a broader spectrum and were able to interpret externality risks and benefits that account for more robust valuations.”
