WHY DID YOU DECIDE TO PURSUE AN MBA AT SFU’S BEEDIE SCHOOL OF BUSINESS?
I was captivated by SFU Beedie School of Business’ unique curriculum arrangement and specific curriculum content, such as Indigenous Business and Sustainability. The drive for cross-cultural experiences and diversity also attracted me. I can see that Beedie’s vision and values are perfectly integrated with the whole journey. There are abundant activities at Beedie to learn and practice to become an innovative and socially responsible business leader with a global perspective.

WHAT IS IT LIKE TO STUDY AND LIVE IN VANCOUVER, CANADA?
Vancouver is an incredibly international and multi-cultural city. The diversity is of great benefit to help us relate everything we learn from the courses and gain insights from different perspectives. There are also various international companies located in downtown Vancouver, which means there are many opportunities for graduates. The weather and scenery in Vancouver is definitely a highlight.

WHAT HAS BEEN YOUR FAVOURITE MOMENT OR EXPERIENCE AT BEEDIE SO FAR? WHAT ARE YOU LOOKING FORWARD TO?
My favourite experience at Beedie so far is that within only a month, I have learned way more than I can imagine. I was inspired every day and I gained lots of insights from every course and every talk I had with the amazing cohort. Everyone in the cohort is open, friendly and willing to share. They enabled me to get a better sense of a brand-new world. I used to be afraid to venture out of my comfort zone. However, now I realize that it can be extremely exciting to be able to do so many things that I have never tried before.

“There are abundant activities at Beedie to learn and practice to become an innovative and socially responsible business leader with a global perspective.”
