I decided to pursue my MBA at Beedie because of the structure of the program with a special highlight on the rigorous nature of the program and the inclusion of the international project. I was also motivated to study at Beedie because of its reputation and the fact that the current Vice President of my country also studied here.

WHAT IS IT LIKE TO STUDY AND LIVE IN VANCOUVER, CANADA?

Studying in Vancouver is an amazing and self-explorative experience. The city provides students with a variety of activities and places for both informative and recreational purposes which is much needed in having a balanced lifestyle as a student. The city is also very culturally diverse with people and cuisine from every part of the world available in every corner. Lastly, one cannot speak about Vancouver without describing the amazing weather of the city; from sunny days at the beaches and hiking parks to the rainy days on the streets of downtown Vancouver, there’s a type of weather for everyone.

WHAT HAS BEEN YOUR FAVOURITE MOMENT OR EXPERIENCE AT BEEDIE SO FAR? WHAT ARE YOU LOOKING FORWARD TO?

I have been fortunate to meet a lot of amazing and welcoming people at Beedie. Students and professors from all the programs have been incredible and there’s a deep sense of community and belonging as displayed by the continuous engagements and interactions with members of the previous cohorts who still visit the school very frequently. My favourite moment from the program so far is the Amazing MBA Race that was organized by the MBA Faculty. It was the perfect way to introduce us to the program as it clearly demonstrated how demanding the program is going be but also showcased how goals can be achieved through teamwork.
